 - Work on heating sources threshold
 - Make some progress on design methodology section
 - The progress you've made since the last meeting
 - HPWH:
 - Fixed constructor and variable definition issues.
 - Fixed pointers issues.
 - I need to test it.
 - Thesis work:
 - Done with the literature review Section.
 - I will be working on the Methodology Section.
 - What you need to do next?
 - I will be working on EnergyTake as a function of water draw
 - I will keep working on my thesis
 - Technical questions for the team:
 - Minutes:
 - It is okay to cite emails and conversations.
 - Create a “class” in a bibfile to refer for
 - Mention flaws in HPWH GLD model in intro and literature review
 - Fix citations. Parentheses around titles would solve the capitalization issues.
- Farooq
 - State project objectives for the ~next two weeks:
 - Focus on Literature review paper.
 - The progress you've made since the last meeting
 - Reviewed papers related to research question-2. Done

- Included them in the review article.
- What you need to do next?
 - Review articles for research question-3
- Technical questions for the team:
 -
